

About the Incubation :

Navrachna Foundation for Entrepreneurship Development, a subsidiary of I.T.S. Engineering College, Greater Noida, is a dedicated platform committed to empowering the next generation of entrepreneurs. It enables students, faculty, and aspiring innovators to transform their ideas into impactful ventures by supporting the commercialization of technologies and fostering a strong startup culture.

As the driving force behind the Startup Incubation Center, the foundation collaborates with the Government of Uttar Pradesh and is supported under the UP Startup Policy 2020, along with associations with key national bodies, like Department of Science & Technology - GOI, Ministry of Micro, Small and Medium Scale Enterprises etc. It offers a well-rounded ecosystem that provides mentorship, funding access, infrastructure, and industry exposure.

At its core, Navrachna focuses on nurturing innovation, validating ideas, and bridging the gap between inventors and investors—creating startups that contribute meaningfully to society and economic growth.

Our key roles include:

- Promoting startups and encouraging innovative idea generation
- Strengthening the entrepreneurial ecosystem among young innovators
- Providing access to funding, mentorship, and infrastructure support
- Assisting in validating ideas and transforming them into real, scalable businesses

Vision :

To build a vibrant and inclusive incubation ecosystem where ideas evolve into impactful ventures, creativity is nurtured, and entrepreneurs are empowered to thrive. Our vision is to become a globally recognized and Asia's leading hub of innovation and entrepreneurship, where education, research, and real-world problem-solving come together seamlessly. We strive to cultivate competent, forward-thinking, and socially responsible innovators by providing the right mentorship, infrastructure, and opportunities—enabling students and faculty alike to experiment, prototype, and transform their ideas into sustainable solutions that contribute meaningfully to society and the future.

Mission :

To create a dynamic and collaborative incubation ecosystem that empowers entrepreneurs with the right resources, mentorship, and networks to grow. We aim to foster a student-first culture rooted in experiential learning, ethical innovation, and sustainability, while also supporting faculty through research and global collaboration. Our mission is to nurture socially responsible, future-ready innovators and build a self-sustaining platform that enables ideas of national and global importance to evolve into impactful startups
